PROFILE

Developer passionate about web and mobile development and UI/UX design, with a degree in Information Technology, specializing in Information Systems Development. I have gained experience through several internships. Motivated and self-reliant, with strong teamwork skills, I aim to apply my skills in a professional environment.

PROFESSIONAL EXPERIENCE

Science Teacher

10/2025 à 03/2026

Way To Success Private Academy and Enfant Intelligent Academy

Zaouiet Sousse, Tunisia

- Teaching science at primary and middle-school levels.
- Introducing students to basic concepts of logic and intellectual reasoning.
- Supporting learners and monitoring their educational progress.
- Preparing learning materials and practical exercises tailored to students levels.

Freelancer

11/2024

Software Engineer Training Center

Remote

As a freelancer, I completed a small project that helped me develop a stronger sense of responsibility and improve my time management to meet a very tight deadline. This project also allowed me to discover a new programming language and put my technical skills into practice. In addition, I had the opportunity to teach computer science remotely, sharing my knowledge, strengthening my teaching skills, and adapting to each learners needs.

FINAL-YEAR INTERNSHIP (GRADUATION PROJECT)

02/2024 à 06/2024

E-learning Web Application Developer

Sweet Touch
